

# REFERENCE LIST

## G2000 AMBIENT OIL MIST DETECTOR

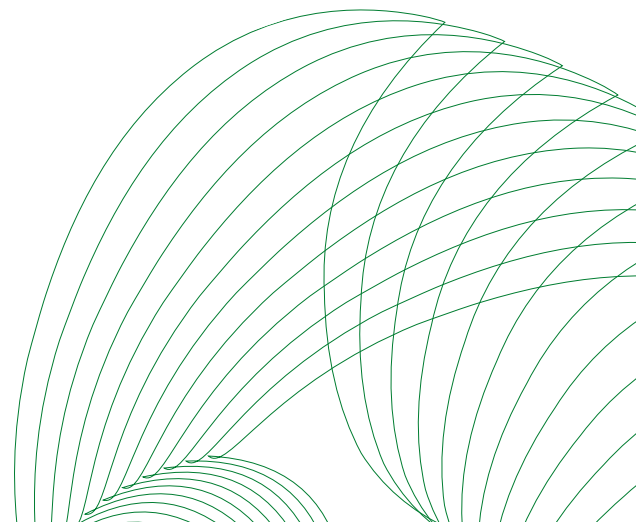

The G2000 Oil Mist Detector has been on the market since 2003. It is a line-of-sight opacity meter that is used to detect oil mist, dust, or smoke in open spaces. The G2000 is well suited for engine rooms, pump rooms and other rooms with hydraulic installations. The end customers are not always known to us. If you need further information, please do not hesitate to contact us.
