

REFERENCE LIST

INERT GAS OXYGEN ANALYZING SYSTEM

The first Green Instruments Inert Gas Oxygen Analyzer was developed in 2003 and it was one of the first oxygen analyzers to receive the marine type approval under the Marine Equipment Directive. In 2009 our G36 and G36p Oxygen Analyzers also received the MED type approval. The Inert Gas Oxygen Analyzing System monitors the content of oxygen in inert gas. It is very robust and user-friendly and provides accurate and reliable measurements.

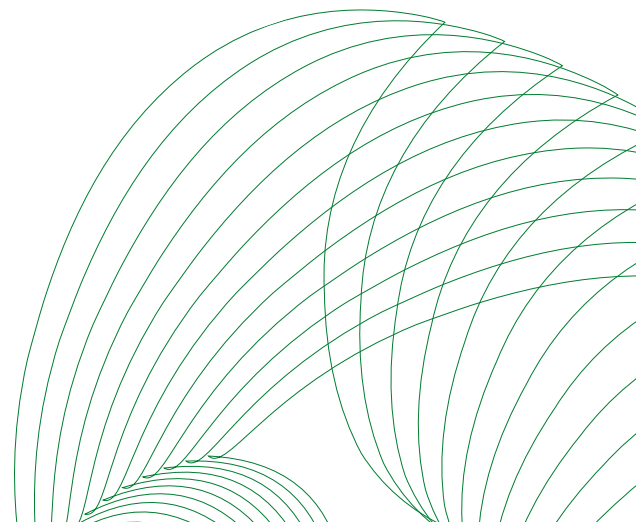

The end customers are not always known to us. If you need further information, please do not hesitate to contact us.

MAJOR OEM CUSTOMERS

- Oxymat A/S - Helsingør, Denmark (Nitrogen generators)
- Gazcon A/S - Lyngby, Denmark (Nitrogen generators)
- Hamworthy Moss AS - Moss, Norway (Nitrogen generators)
- Water Mist Engineering AS (ex. ETech Process AS) - Søgne, Norway (Nitrogen generators)
- Verhaar Omega B.V. - Leiden, The Netherlands (Nitrogen generators)
- Coldharbour Marine Ltd. - Derbyshire, UK (Inert gas generators)
- Kangrim Industries Co. Ltd. - Changwon, South Korea (Inert gas generators)
- Generon IGS - Houston, Texas, USA (Nitrogen generators)

MAJOR TANKER CUSTOMERS

- Teekay Corporation - Hamburg, Germany, Stavanger, Norway, Vancouver, Canada and Singapore
- International Tanker Management - Hamburg, Germany, Mumbai, India and Singapore
